News From SHELTER, Inc.

SHELTER, Inc. has been invited to partner with the City of Fairfield, Solano County in the next phase of the transition and negotiations process to operate the facility located at 310 Beck Avenue.

SHELTER, Inc. has been providing services and programs for the homeless population in the East Bay for over 30 years, fueled by the belief that every child should have a home. This partnership will allow SHELTER, Inc. to combat the regional issue of homelessness by building a bridge of partnerships and resources to help eradicate this growing crisis.

"Homelessness is not a city issue, it's not a county issue. One of 4 homeless people in the United States live in California. We approach it from a city level (and) we approach it from a county level, because that's the way the funds flow. But I think we need to be more creative and really realize that it's a regional issue."

- John Eckstrom, CEO of SHELTER, Inc.

SHELTER, Inc. stands firm in their mission to prevent end homelessness one family at a time. With effective and strategic services, SHELTER, Inc. will continue to assist the most vulnerable in our community, striving to inspire lives of self-sufficiency.
